INDEPENDENT AUDITORS' REPORT

Governing Board
Perris Union High School District
Perris, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perris Union High School District (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2011-2012*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Perris Union High School District, as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in the Notes to the basic financial statements, the State of California continues to suffer the effects of a recessionary economy, which directly impacts the funding requirements of the State of California to the K-12 educational community.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2012, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 14 and budgetary comparison and other postemployment benefit information on pages 57 and 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The Schedule of Expenditures of Federal Awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations (Circular A-133)* and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the *supplementary information* is fairly stated in all material respects in relation to the financial statements as a whole.

This section of Perris Union High School District's (the District) (2011-2012) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2012, with comparative information from 2011. Please read it in conjunction with the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the District and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District, as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statements in regards to interfund activity, payables, and receivables.

The *Fund Financial Statements* include statements for each of the two categories of activities: governmental and fiduciary.

The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The Primary unit of the government is the Perris Union High School District.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2012

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

The District's revenues were once again reduced considerably this past year due to the economy of the State. As a result, further budget reductions were implemented during the 2011-2012 school year. Limited resources were once again reevaluated and directed toward maintaining strong educational programs for the students served by the District. During 2011-2012, the District set student attendance goals and implemented processes that resulted in higher student in-seat time. This result was twofold, higher student test scores and an increase in Revenue Limit funding. In addition to its ongoing efforts in the maintenance and repair of existing facilities, the District continued its aggressive facilities acquisition, construction, and modernization programs, a few of which are listed below:

1. Pinacate Middle School's Expansion Project Phase I, funded by Measure "Z" bonds, Redevelopment Agency (RDA), State Capital Funds and Developer Fees, was completed in August 2012. This phase included a new library/administrative building and gymnasium building. Phase II of the Expansion Project began in September 2012 and is projected to be completed in July 2013. It includes the modification and expansion of the former main school building to include new classrooms, new kitchen facilities, a new resource area, a new outdoor lunch shelter, and the existing multipurpose room and restrooms will be modernized, upgraded, and expanded.
2. Heritage High School's Agricultural Research Center, funded through the Career Technical Education (CTE) Proposition 1D competitive grant program and matching funds, was completed in June 2012. The project included a 6,561 square foot Agriculture Science Building which will house two Animal Science Laboratories and one Research Laboratory. In addition to the main Agricultural Science Building, a greenhouse, shade house, rabbit barn, laying barn and finishing barn were also included. The entire project is immersed within a plethora of outside land laboratory facilities including pastures, orchards, livestock breeding, and growing areas.
3. Perris High School's Stadium Completion project funded by Measures "Z" Bonds, was completed in June 2012.
4. Construction of an 18-classroom building at Perris High School, funded by the 2011 Special Revenue Bonds, began in November 2012 and will allow for many of the existing portable classrooms to be removed.
5. A state-of-the-art agriculture facility at Perris High School, funded by Developer Fees, began in October 2012.
6. California Military Institute Music and Science Building, funded by QSCB and Developer Fees, began in June 2012 and is projected to be completed in June 2013.

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Assets and the Statement of Activities

The *Statement of Net Assets* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include *all* assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

PERRIS UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2012

These two statements report the District's net assets and changes in them. Net assets are the difference between assets and liabilities, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's operating results. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Assets* and the *Statement of Activities*, we present the District activities as follows:

Governmental Activities - The District reports all of its services in this category. This includes the education of seventh through twelfth grade students, adult education students, the operation of a community day school program, two charter schools, and the on-going effort to expand, improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental Funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

THE DISTRICT AS A TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for funds held on behalf of others, such as funds for associated student body activities, scholarships, employee retiree benefits, and pensions. The District's fiduciary activities are reported in the *Statements of Fiduciary Net Assets*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE DISTRICT AS A WHOLE

Net Assets

The District's net assets were \$188,502,774 for the fiscal year ended June 30, 2012. Of this amount, \$1,143,545 was unrestricted. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the Governing board's ability to use those net assets for day-to-day operations. Our analysis below, in summary form, focuses on the net assets (Table 1) and change in net assets (Table 2) of the District's governmental activities.

Changes in Net Assets

The results of this year's operations for the District as a whole are reported in the *Statement of Activities* on page 16. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Governmental Activities

As reported in the *Statement of Activities* on page 16, the cost of all of our governmental activities this year was \$95,704,686. However, the amount that our taxpayers ultimately financed for these activities through local taxes was only \$27,333,470. The remaining cost of was paid by those who benefited from the programs; \$984,193, or by other governments and organizations who subsidized certain programs with \$19,027,137 in grants and contributions. We paid for the remaining "public benefit" portion of our governmental activities with State funds, and with other revenues, like interest and general entitlements.

PERRIS UNION HIGH SCHOOL DISTRICT

**MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

In Table 3, we have presented the cost of each of the District's largest functions: instruction and instruction-related, pupil services, administration, maintenance and operations, and other outgo. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$52,182,055 which is an increase of \$4,174,190 from last year (Table 4).

PERRIS UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

The primary reasons for the increases and decreases to the Districts' fund balances are:

1. As the District's principal operating fund, the General Fund is comprised of unrestricted as well as restricted dollars. The fund balance in the General Fund decreased by \$4,259,007. The net decrease is primarily due to the final spend-down of Federal stimulus funds and continued revenue decreases.
2. The Charter School Fund balance increased by \$549,980 due to the increased revenue generated by an increase in average daily attendance.
3. The Cafeteria Fund balance increased by \$253,326 due the continued expansion of the nutrition service program.
4. The Capital Projects Fund for Blended Component Units increased by an net \$14,097,435 collectively due primarily to construction funding for building projects at Pinacate Middle School, Heritage High School, Perris High School and California Military Institute.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget as it attempts to manage unexpected changes in revenues and expenditures. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our audit report on page 57.

1. Revenue revision increases made to the 2011-2012 adopted budget, were primarily attributable to a combination of the reversal of the 3.85 percent reduction to the District's revenue limit and Redevelopment Agency funds.
2. Budgeted expenditures increased due to the reversal of expenditure reductions previously identified.
3. Budgeted expenditures decreased due to a combination of the deferral of 2010-2011 planned expenditures to the 2012-2013 fiscal year and the State of California on behalf payments to CalSTRS for the District (based on 4.267 percent of annual payroll).

**MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2012, the District had \$219,267,244 in a broad range of capital assets (net of depreciation), including land, buildings, and furniture and equipment. This amount represents a net increase (including additions, deductions, and depreciation) of \$12,671,396 or 6.1 percent, from last year (Table 5).

Table 5

	<u>Governmental Activities</u>	
	<u>2012</u>	<u>2011</u>
Land and construction in progress	\$ 36,092,310	\$ 18,693,058
Buildings and improvements, net of depreciation	178,271,949	182,914,824
Furniture and equipment, net of depreciation	4,902,985	4,987,966
Total	<u>\$ 219,267,244</u>	<u>\$ 206,595,848</u>

This year's increase of \$17.4 million in land and construction in progress is primarily a result of E-rate projects at various sites and ongoing projects such as Pinacate Middle School, Perris High School additions, the Heritage High School Agricultural Center, and High School #4. In addition, the \$4.6 million decrease in building and improvements along with \$0.8 million decrease in furniture and equipment pertain to depreciation expense being higher in 2011-2012 than actual purchases incurred, thus, reducing the book value of the existing assets. The overall total asset amount includes approximately \$12.6 million in current year addition net of depreciation expense for the 2011-2012 fiscal year.

Long-Term Obligations

At the end of this year, the District had \$82,993,848 in long-term obligations outstanding versus \$101,198,729 last year, an decrease of 17.99 percent. These long-term obligations consisted of:

Table 6

PERRIS UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

General Obligation Bonds and Capital Lease obligations decreased by the required annual principal payment. Certificates of Participation were paid down by \$24,682,769. Other obligations include accumulated vacation payable and Public Agency Retirement Services retirement payable. We present more detailed information regarding our long-term obligations in Note 8 of the financial statements.

SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2011-2012:

Accomplishments supporting student learning throughout the 2011-2012 school year included professional development opportunities for teachers, administrators, support staff, and parent/community members. Focus areas were core curriculum, assessment, student engagement, best instructional practices, behavior management, and integration of technology and college/career preparation.

Academic Performance Index (API)

State results are improving academically from year-to-year, based on results of statewide testing. The API is the cornerstone of the state's academic accountability requirements. Its purpose is to measure the academic performance and growth of schools. (CDE, 2010)

The API:

1. Is based on an improvement model and consists of a Base and a Growth API each year that allows for comparability and growth measurement.
2. The Base API is calculated from previous year's test scores and is used to calculate student improvement at the school/district level when compared to current year's test scores (growth API).
3. Each school has a unique target related to their Base API.

Perris Union High School District (PUHSD) API Highlights:

1. The district overall API increased by one point.
2. The Hispanic subgroup API increased by nine points.
3. The Socioeconomically Disadvantaged (SED) subgroup increased by seven points.
4. The African American subgroup decreased by 33 points.
5. The English Learner subgroup decreased by 9 points.
6. The Students with Disabilities (SWD) subgroup decreased by 34 points.
7. The California Military Institute, Choice 2000, Paloma Valley High School, and the two alternative sites all met their annual growth targets.
8. Pinacate Middle School increased their API by two points.

PERRIS UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2012

Adequate Yearly Progress (AYP):

1. AYP is a Federal Accountability Measurement required by the Elementary and Secondary Education Act (ESEA).
2. Status Model: Schools must meet minimum proficiency targets that increase approximately ten percent each year until 2014 when all students are expected to achieve proficiency.
3. High school AYP proficiency is based on the California High School Exit Exam (CAHSEE) Census administration given to all 10th graders in March in the areas of English Language Arts and Math.
4. Middle school AYP proficiency is based on the California Standardized Testing (CST), California Modified Assessment (CMA), and the California Alternate Performance test (CAPA) in the areas of English Language Arts and Math.

Perris Union High School District (PUHSD) 2012 AYP Highlights:

1. District percent proficient in ELA decreased from 49.9 percent to 49.1 percent with similar declines for most numerically significant subgroups.
2. District percent proficient in Math increased from 42.7 percent to 46.7 percent and incremental gains were seen in the Hispanic and SED subgroups.
3. Choice 2000 met all AYP requirements and The California Military Institute met 16 out of 17 requirements.

The District continues to focus on student learning and improved instructional practices and professional development for students, families, teachers, and administration. The 2011-2012 budget was built to support these guiding principles as well as exiting from Program Improvement status. The financial and instructional plans prioritize needs and allocation of resources to support the nine essential program components (NEPC).

PERRIS UNION HIGH SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2012-2013 year, the governing board and management used the following criteria at adoption:

- District enrollment of 9,640 and the Charter schools 1,090, is projected to be 10,730 in total. This represented an increase of 2.6 percent District-wide which, in comparison with the past three years, is a positive sign for slight growth. Overall District Average Daily Attendance (ADA); including charters is projected to be 9,962. This represents an increase of 14 ADA.
- Lottery funding for 2012-2013 is projected to be \$128.50 per prior-year annual ADA. This per-pupil rate reflects \$111 per pupil for unrestricted lottery revenues and \$17.50 per pupil for lottery funding restricted to the purchase of instructional materials.
- Base Revenue Limit was calculated at \$6,072 per ADA. This included a statutory Cost of Living Adjustment (COLA) of 3.24 percent paired with a deficit factor of 22.72 percent.
- The District reserve for economic uncertainty is three percent and meets the minimum required reserve standard for a district this size.
- With the uncertainty of the State budget and an effort to continue a fiscally conservative approach with the recommended governor budget triggers, the District moved forward in implementing 2012-2013 budget reductions that were recommended by the Superintendent and his Cabinet and were subsequently presented to and approved by the Board.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact Candace Reines, Assistant Superintendent, Business Services, at Perris Union High School District, 155 E. 4th Street, Perris, California, 92570, or e-mail at candace.reines@puhsd.org.

PERRIS UNION HIGH SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2012

Total Net Change in Fund Balances - Governmental Funds \$ 4,174,190

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Assets and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.

This is the amount by which capital outlays exceeds depreciation in the period.

Capital outlays	\$ 19,144,208	
Depreciation expense	<u>(6,448,257)</u>	
Net Expense Adjustment		12,695,951

Loss on disposal of capital assets is reported in the government-wide statement of net assets, but is not recorded in the governmental funds. (24,555)

In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) and supplemental retirement are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation earned was less than the amounts used by \$24,185 and supplemental retirement earned was less than the amount used by \$735,321. 759,506

Proceeds received from issuance of debt is a revenue in the governmental funds, but it increases long-term obligations in the Statement of Net Assets and does not affect the Statement of Activities:

Qualified school construction bonds (2,100,000)

In governmental funds, debt issuance costs are recognized as expenditures in the period they are incurred. In the Statement of Activities, they are amortized over the life of the debt. The difference between debt issuance costs recognized in the current period and issue costs amortized for the period is: (62,703)

The accompanying notes are an integral part of these financial statements.

PERRIS UNION HIGH SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES (Continued) FOR THE YEAR ENDED JUNE 30, 2012

Repayment of debt principal is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Assets and does not affect the Statement of Activities:

General obligation bonds	\$ 1,685,000
Certificates of participation	18,755,000
Qualified school construction bonds	57,769
Capital lease obligations	481,641

Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources.

In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The additional interest reported in the Statement of Activities is the result of two factors. First, accrued interest on the general obligation bonds increased by \$99,973 and second, \$1,434,035 of additional accumulated interest was accreted on the District's "capital appreciation" general obligation bonds.

Change in Net Assets of Governmental Activities

(1,534,008)

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Perris Union High School District (the District) was incorporated on August 23, 1897, under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades 7 - 12 as mandated by the State and/or Federal agencies. The District operates one middle school, three high schools, a continuation school, a community day school, two charter schools and an adult education school.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Perris Union High School District, this includes general operations, food service, and student related activities of the District.

Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. For financial reporting purposes, the component unit discussed below is reported in the District's financial statements because of the significance of its relationship with the District. The component unit, although a legally separate entity, is reported in the financial statements using the blended presentation method as if it were part of the District's operations because the Governing Board of the component unit is essentially the same as the governing board of the District and because its purpose is to finance the construction of facilities to be used for the direct benefit of the District.

The Perris Valley Schools Capital Facilities Corporation's (the Corporation) financial activity is presented in the financial statements in the Capital Project Fund for Blended Component Units and the Corporation Debt Service Fund. Certificates of participation issued by the Corporation are included as long-term obligations in the government-wide financial statements. Individually-prepared financial statements are not prepared for Perris Valley Schools Capital Facilities Corporation.

The Perris Union High School District Financing Authority (the Authority), formed for the purpose of issuing debt related to the Community Facilities District 91-1 and the Community Facilities District 92-1 (the CFDs), financial activity is presented in the financial statements in the Capital Project Fund for Blended Component Units and in the Fiduciary Funds Statement as the Debt Service Fund for Special Tax Bonds. Special Tax Bonds issued by the CFD's not are included as long-term obligations in the government-wide financial statements as they are not obligations of the District. Individually-prepared financial statements are not prepared for Perris Union High School District Financing Authority.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Other Related Entities

Charter School The District has approved charters for Choice 2000 Online High School and California Military Institute pursuant to *Education Code* Section 47605. The charter schools are operated by the District, and their financial activities are presented in the Charter School Fund.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into two broad fund categories: governmental and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Charter Schools Fund The Charter School's Fund may be used by authorizing districts to account separately for the activities of district-operated charter schools that would otherwise be reported in the authorizing district's General Fund.

Cafeteria Fund The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

Capital Project Fund for Blended Component Units The Capital Project Fund for Blended Component Units is used to account for capital projects financed by the Perris Valley Schools Capital Facilities Corporation, the 91-1 Community Facilities District, and the 92-1 Community Facilities District that are considered blended component units of the District under generally accepted accounting principles.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Debt Service Fund for Blended Component Units The Debt Service Fund for Blended Component Units is used to account for the accumulation of resources for the payment of principal and interest on bonds issued by the Perris Valley Schools Capital Facilities Corporation, the 91-1 Community Facilities District, and the 92-1 Community Facilities District and similar entities that are considered blended component units of the District under generally accepted accounting principles (GAAP).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues for adult education programs and is to be expended for adult education purposes only.

Capital Project Funds The Capital Project funds are used to account for and report financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Special Reserve Fund for Capital Outlay Projects The Special Reserve Fund for Capital Outlay Projects exists primarily to provide for the accumulation of General Fund monies for capital outlay purposes (*Education Code* Section 42840).

Debt Service Funds The Debt Service funds are used to account for the accumulation of restricted, committed, or assigned resources for and the payment of principal and interest on general long-term obligations.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (*Education Code* Sections 15125-15262).

QZAB Fund The QZAB Fund is used to account for the accumulation of resources for the lease payment related to the QZAB lease purchase agreement between the District and the Public Property Financing Corporation of California.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Debt Service Fund The Corporation Debt Service Fund is used to account for the accumulation of resources for the payment of the principal and interest related to certificates of participation issued by the Perris Valley Schools Capital Facilities Corporation that is considered a blended component unit of the District under generally accepted accounting principles (GAAP).

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Proprietary funds are classified as enterprise or internal service. The District has no proprietary funds.

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the district's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency funds account for the accumulation of resources for the payment of the principal and interest on the Special Tax Bonds issued by the Community Facilities Districts as well as the student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide Statement of Activities presents a comparison between expenses, both direct and indirect, of the District and for each governmental function. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the District.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other activities result from special revenue funds and the restrictions on their net asset use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Revenue Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as deferred revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as deferred revenue.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which have not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

Investments

Investments held at June 30, 2012, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental type funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide Statement of Net Assets. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 25 to 50 years; improvements, 7 to 30 years; equipment, 5 to 20 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the Statement of Net Assets.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Compensated Absences

Accumulated unpaid vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide Statement of Net Assets. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, certificates of participation, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

Deferred Issuance Costs, Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method.

Fund Balances - Governmental Funds

As of June 30, 2012, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board. The District currently does not have any committed funds.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted one-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. The government-wide financial statements report \$47,263,954 of restricted net assets.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental and business-type activities columns of the Statement of Activities, except for the net residual amounts transferred between governmental and business-type activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California *Education Code* and requires the Governing board to hold a public hearing and adopt an operating budget no later than July 1st of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Riverside bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

New Accounting Pronouncements

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34*. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of GASB Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements.

This Statement modifies certain requirements for inclusion of component units in the financial reporting entity. For organizations that previously were required to be included as component units by meeting the fiscal dependency criterion, a financial benefit or burden relationship also would need to be present between the primary government and that organization for it to be included in the reporting entity as a component unit. Further, for organizations that do not meet the financial accountability criteria for inclusion as component units but that, nevertheless, should be included because the primary government's management determines that it would be misleading to exclude them, this Statement clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. For component units that currently are blended based on the "substantively the same governing body" criterion, it additionally requires that (1) the primary government and the component unit have a financial benefit or burden relationship or (2) management (below the level of the elected officials) of the primary government have operational responsibility (as defined in paragraph 8a) for the activities of the component unit. New criteria also are added to require blending of component units whose total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The blending provisions are amended to clarify that funds of a blended component unit have the same financial reporting requirements as a fund of the primary government. Lastly, additional reporting guidance is provided for blending a component unit if the primary government is a business-type activity that uses a single column presentation for financial reporting.

This Statement also clarifies the reporting of equity interests in legally separate organizations. It requires a primary government to report its equity interest in a component unit as an asset. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. Early implementation is encouraged.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities.

Concepts Statement 4 also identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. Earlier implementation is encouraged.

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined the elements included in financial statements, including deferred outflows of resources and deferred inflows of resources. In addition, Concepts Statement 4 provides that reporting a deferred outflow of resources or a deferred inflow of resources should be limited to those instances identified by the Board in authoritative pronouncements that are established after applicable due process. Prior to the issuance of this Statement, only two such pronouncements have been issued. Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, requires the reporting of a deferred outflow of resources or a deferred inflow of resources for the changes in fair value of hedging derivative instruments, and Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*, requires a deferred inflow of resources to be reported by a transferor government in a qualifying service concession arrangement. This Statement amends the financial statement element classification of certain items previously reported as assets and liabilities to be consistent with the definitions in Concepts Statement 4.

This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in financial statement presentations.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Earlier implementation is encouraged.

In March 2012, the GASB issued Statement No. 66, *Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

This Statement amends Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, by removing the provision that limits fund-based reporting of an entity's risk financing activities to the general fund and the internal service fund type. As a result, governments should base their decisions about fund type classification on the nature of the activity to be reported, as required in Statement 54 and Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

This Statement also amends Statement 62 by modifying the specific guidance on accounting for (1) operating lease payments that vary from a straight-line basis, (2) the difference between the initial investment (purchase price) and the principal amount of a purchased loan or group of loans, and (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a current (normal) servicing fee rate. These changes clarify how to apply Statement No. 13, *Accounting for Operating Leases with Scheduled Rent Increases*, and result in guidance that is consistent with the requirements in Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, respectively. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Earlier implementation is encouraged.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*—an amendment of Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by State and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement.

Statement No. 67, *Financial Reporting for Pension Plans*, revises existing standards of financial reporting for most pension plans. This Statement and Statement 67 establish a definition of a pension plan that reflects the primary activities associated with the pension arrangement—determining pensions, accumulating and managing assets dedicated for pensions, and paying benefits to plan members as they come due.

The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of State and local governmental employers through pension plans that are administered through trusts that have the following characteristics:

Contributions from employers and nonemployer contributing entities to the pension plan and earnings on those contributions are irrevocable.

Pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms.

Pension plan assets are legally protected from the creditors of employers, nonemployer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

This Statement is effective for fiscal years beginning after June 15, 2014. Earlier implementation is encouraged.

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2012, are classified in the accompanying financial statements as follows:

Governmental activities	\$ 41,890,248
Fiduciary funds	6,292,226
Total Deposits and Investments	<u>\$ 48,182,474</u>

Deposits and investments as of June 30, 2012, consist of the following:

Cash on hand and in banks	\$ 6,311,837
Cash in revolving	25,000
Investments	41,845,637
Total Deposits and Investments	<u>\$ 48,182,474</u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Pool.

Weighted Average Maturity

The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. Information about the weighted average maturity of the District's portfolio is presented in the following schedule:

Investment Type	Fair Value	Maturity Date
Commercial Paper - F Car Owner Trust	\$ 3,845,725	12/10/2012
First American Government Obligation Fund Class D	829,931	7/1/2012

Riverside County Investment Pool	15,267,285	431*
Total	<u>\$ 41,933,011</u>	

*Weighted-average days to maturity.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type.

Investment Type	Minimum Legal Rating	Rating June 30, 2012	Fair Value
Commercial Paper - F Car Owner Trust	Not Required	A+	\$ 3,845,725

Riverside County Investment Pool	Not Required	AAA/V1	15,267,285
Total Investments			<u>\$ 41,933,011</u>

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2012, the District's bank balance was not exposed to custodial credit risk.

NOTE 10 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Description

The Postemployment Benefits Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the Perris Union High School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the Plan consists of five retirees currently receiving benefits.

Contribution Information

For fiscal year 2011-2012, the District contributed \$50,841 to the Plan, all of which was used for current premiums (100 percent of total premiums).

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012**

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	\$ 50,841
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-
Annual OPEB cost (expense)	<u>50,841</u>
Contributions made	<u>50,841</u>
Increase in net OPEB obligation	-
Net OPEB obligation, beginning of year	-
Net OPEB obligation, end of year	<u><u>\$ -</u></u>

Trend Information

Trend information for annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows:

Year Ended June 30,	Annual OPEB Cost	Actual Employer Contribution	Percentage Contributed	Net OPEB Obligation
2010	\$ 50,841	\$ 50,841	100%	\$ -

Funded Status and Funding Progress

A schedule of funding progress as of the most recent actuarial valuation is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Unprojected Unit Credit (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b - a) / c)
June 1, 2009	\$ -	\$ 422,309	\$ 422,309	0%	\$ -	0%

Actuarial valuations of an ongoing Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, investment returns, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 11 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage and destruction of assets; errors and omissions, injuries to employees, life and health of employees and natural disasters. The District purchases coverage for property damage with limits up to a maximum of \$250,000,000, subject to various policy sublimits generally ranging from \$500 to \$100,000,000 and deductibles ranging from \$500 to \$5,000. The District also purchases coverage for general liability claims with limits up to \$1,000,000 per occurrence with excess liability coverage up to \$25,000,000 per occurrence and \$60,000,000 in the aggregate, all subject to various deductibles up to \$5,000 per occurrence. The District participates in a finite risk sharing pool for workers' compensation coverage up to \$150,000,000 per occurrence with no self-insured retention. Employee health benefits are covered by a commercial insurance policy purchased by the District. The District provides health insurance benefits to District employees electing to participate in the plan by paying a monthly premium based on the number of District employees participating in the Plan.

Property and Liability

The District is exposed to various risks of loss related to torts, theft, damage and destruction of assets; errors and omissions, injuries to employees, life and health of employees and natural disasters. During fiscal year ending June 30, 2012, the District pooled for property and liability coverage as a member of Riverside Schools' Insurance Authority, a Joint Powers Authority. Settlement claims have not exceeded the limits of this coverage in any of the past three years.

NOTES TO FINANCIAL STATEMENTS

Workers' Compensation

For fiscal year 2012, the District participated in the Riverside Schools' Risk Management Authority (RSRMA), a workers' compensation coverage purchasing pool. The intent of RSRMA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants. RSRMA, in turn, pools for workers' compensation coverage through their membership in the Protected Insurance Program for Schools and Community Colleges (PIPS), a finite risk sharing pool. Pooling in this manner allows the member districts and joint powers authorities to take advantage of increased purchasing power and greater spread of risk. As a member of PIPS, RSRMA is assigned a rate based on the JPA's overall payroll and loss experience compared to the other members within PIPS. Each participant in RSRMA pays its workers' compensation premium based on its individual rate which is weighted based on their payroll and loss experience within RSRMA. This arrangement insures that each participant shares equally in the overall performance of RSRMA. Participation in RSRMA is limited to districts that can meet the selection criteria.

Employee Medical Benefits

The District is a member of the Riverside Employer/Employee Partnership (REEP) to provide employee health benefits. REEP is a shared risk pool comprised of various school districts. Rates are set through an annual calculation process. The District pays a monthly contribution, which is placed in a common fund from which claim payments are made for all participating districts. Claims are paid for all participants regardless of claims flow. The Board of Directors has a right to return monies to a district subsequent to the settlement of all expenses and claims if a district withdraws from the pool.

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to CalSTRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Blvd., Sacramento, California 95826.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Funding Policy

Active plan members are required to contribute 8.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2011-2012 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalSTRS for the fiscal years ending June 30, 2012, 2011, and 2010, were \$2,887,236, \$3,159,611, and \$3,205,162, respectively, and equal 100 percent of the required contributions for each year.

CalPERS

Plan Description

The District contributes to the School Employer Pool under the CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95811.

Funding Policy

Active plan members are required to contribute 7.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2011-2012 was 10.923 percent of covered payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalPERS for the fiscal years ending June 30, 2012, 2011, and 2010, were \$2,092,825, \$2,111,961, and \$1,908,544, respectively, and equal 100 percent of the required contributions for each year.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$1,928,077 (4.855 percent of annual payroll). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures; however, guidance received from the California Department of Education advises local educational agencies not to record these amounts in the Annual Financial and Budget Report. These amounts have not been included in the budget amounts reported in the *General Fund - Budgetary Comparison Schedule*. These amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2012.

Litigation

The District is the chartering agency for Choice 2000 Online Charter School (the Charter School). There are currently two legal proceedings pending that could impact prior and future funding of the Charter School's operation as a seat time program. Hearings have been scheduled to determine resolution of prior and current year audit findings related to the Charter School. The District will continue to pursue a settlement and legislative options to resolve the issues prior to these hearings. The extent of potential loss to the District is unknown at this time, but based upon the prior and current year annual financial audits a preliminary estimate is \$8.0 million.

Construction Commitments

As of June 30, 2012, the District had the following commitments with respect to the unfinished capital projects:

<u>CAPITAL PROJECTS</u>	<u>Remaining Construction Commitment</u>	<u>Expected Date of Completion</u>
Heritage High School AG Center	\$ 600,167	September 2012
Perris High School Stadium Expansion	68,009	October 2012
Pinacate Middle School (Phase 1)	2,669,485	October 2012
CMI Music and Science Building	2,785,981	June 2013
CMI Portable Classrooms	363,156	October 2012
	<u>\$ 6,486,798</u>	

NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS

The District is a member of the Riverside Schools Risk Management Authority (RSRMA), Riverside Employer/Employee Partnership (REEP), and the Riverside Schools' Insurance Authority (RSIA) public entity risk pools. The District pays an annual premium to the applicable entity for its health, workers' compensation, and property liability coverage. The relationships between the District and the pools are such that they are not component units of the District for financial reporting purposes.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

During the year ended June 30, 2012, the District made payments of \$1,233,117, \$6,549,324, and \$444,919 to RSRMA, REEP, and RSIA, respectively, for its workers' compensation, health, and property liability coverage.

NOTE 15 - FISCAL ISSUES RELATING TO BUDGET REDUCTIONS

The State of California continues to suffer the effects of a recessionary economy. California school districts are reliant on the State of California to appropriate the funding necessary to continue the level of educational services expected by the State constituency. With the implementation of education trailer bill Senate Bill 70 (Chapter 7, Statutes of 2011), 39 percent of current year funding has now been deferred to a subsequent period, creating significant cash flow management issues for districts in addition to requiring substantial budget reductions, ultimately impacting the ability of California school districts to meet their goals for educational services.

The General Fund balance has decreased by \$2,724,388 over the past two years. The fiscal year 2012-2013 budget projects a further decrease of \$4,277,151 (50.54 percent). For a district this size, the State recommends available reserves of at least three percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating deficits in two of the past three years and anticipates incurring an operating deficit during the 2012-2013 fiscal year. Total long-term obligations have decreased by \$16,802,404 over the past two years.

Average daily attendance has decreased by 53 over the past two years. Additional decline of 48 ADA is anticipated during fiscal year 2012-2013.

¹ Budget 2013 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all funds designated for economic uncertainty contained within the General Fund.

³ On behalf payments of \$1,928,077, \$1,654,254, and \$1,694,563, have been excluded from the calculation of available reserves for the fiscal years ending June 30, 2012, 2011, and 2010, respectively.

⁴ Excludes Adult Education and Charter School ADA.

JUNE 30, 2012**

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances and in Business-Type Activities, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts consist primarily of ARRA - State Fiscal Stabilization Funds and Medi-Cal Administrative Activities Program funds that in the previous period were recorded as revenues but were unspent. These unspent balances have been expended in the current period. In addition, Medi-Cal Billing Option funds have been recorded in the current period as revenues that have not been expended as of June 30, 2012. These unspent balances are reported as legally restricted ending balances within the General Fund.

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

PERRIS UNION HIGH SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2012

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at either the 1982-83 actual minutes or the 1986-87 requirement, whichever is greater, as required by *Education Code* Section 46201.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Schedule of Charter Schools

This schedule lists all charter schools chartered by the District, and displays information for each charter school on whether or not the charter school is included in the District's audit.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances are included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

INDEPENDENT AUDITORS' REPORTS

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board
Perris Union High School District
Perris, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Perris Union High School District as of and for the year ended June 30, 2012, which collectively comprise Perris Union High School District's basic financial statements and have issued our report thereon dated October 22, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

As discussed in the Notes to the basic financial statements, the State of California continues to suffer the effects of a recessionary economy, which directly impacts the funding requirements of the State of California to the K-12 educational community.

Internal Control Over Financial Reporting

Management of Perris Union High School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Perris Union High School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Perris Union High School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Perris Union High School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Perris Union High School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the governing board, management, the California Department of Education, the State Controller's Office, Federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH
REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL
EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Governing Board
Perris Union High School District
Perris, California

Compliance

We have audited Perris Union High School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Perris Union High School District's major Federal programs for the year ended June 30, 2012. Perris Union High School District's major Federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Perris Union High School District's management. Our responsibility is to express an opinion on Perris Union High School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Perris Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Perris Union High School District's compliance with those requirements.

In our opinion, Perris Union High School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

The management of Perris Union High School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Perris Union High School District's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Perris Union High School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the governing board, management, the California Department of Education, the State Controller's Office, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

Governing Board
 Perris Union High School District
 Perris, California

We have audited Perris Union High School District's compliance with the requirements as identified in the *Standards and Procedures for Audit of California K-12 Local Educational Agencies*, applicable to Perris Union High School District's government programs as noted below for the year ended June 30, 2012. Compliance with the requirements referred to above is the responsibility of Perris Union High School District's management. Our responsibility is to express an opinion on Perris Union High School District's compliance based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2011-2012* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about Perris Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of Perris Union High School District's compliance with those requirements.

In our opinion, Perris Union High School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2012, except as described in the Schedule of State Awards Findings and Questioned Costs section of the accompanying Schedule of Findings and Questioned Costs.

In connection with the audit referred to above, we selected and tested transactions and records to determine the Perris Union High School District's compliance with the State laws and regulations applicable to the following items:

CHOICE 2000 ONLINE HIGH SCHOOL

Criteria or Specific Requirements

The California Code of Regulations, Title 5, pursuant to Section 47612.5 of the California *Education Code* and in compliance with Article 5.5 Section 51745 through 51749.3 of the California *Education Code* requires that a Non-Classroom Based Charter Program utilize Independent Study attendance accounting procedures.

Questioned Costs

Independent study regulations must be followed to account for attendance in a "non-classroom based" charter program, therefore, all 168.70 ADA reported by the school for 2011-2012 should be considered non-allowable for funding purposes. Per the certified June 15, 2012, Second Principal Apportionment, the total General Purpose Entitlement Funding was \$1,035,987 at \$6,141 x 168.70 ADA for grades 9 through 12, and the Categorical per ADA Block Grant Funding was \$67,111, at \$500 per ADA, adjusted by the State proration factor.

Context

The questioned costs were based upon testing of the attendance records at the Choice 2000 Online High School.

Effect

Due to the application of regular seat time attendance procedures instead of independent study attendance accounting, Choice 2000 Online High School is not in compliance with referenced guidelines.

Cause

Choice 2000 Online Charter, a non-classroom based charter school has been in operation since 1994. The school has been utilizing contemporaneous attendance records and a course bell schedule, similar to that of a classroom based high school.

STATE AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

Recommendation

The California Code of Regulation, Title 5, pursuant to Section 47612.5 of the California *Education Code* and in compliance with Article 5.5 Section 51745 through 51749.3 of the California *Education Code* requires that a non-classroom based charter program utilize Independent Study attendance accounting procedures. In order to avoid future penalty, we recommend that the District establish procedures of attendance accounting to be in compliance with the California *Education Code*.

Corrective Action Plan

The District will continue to work with legal counsel through the appeals process. The District believes Choice 2000 complied with all legal requirements governing the educational program being provided at Choice 2000, and therefore, believes ADA should be allowable for funding purposes. Choice 2000 has acted in good faith at all times to comply with the conditions established in law or regulation necessary for apportionment of funding.
